Profile

As a Software Engineering Manager with a Bachelor of Technology in Information Technology, I bring a proven track record of success in technical program/product management, strategic planning, and cross-functional collaboration. With expertise in product roadmapping, usability reviews, and data-driven decision making, I excel in communication and presentation, leadership, and mentorship. I am well-versed in agile methodologies and have a strong background in product marketing. I am passionate about driving innovation and delivering high-quality software solutions.
